Organic products can be expensive. Keep an eye out for coupons and sales online and in the newspaper. Be sure to check out the websites of your local natural grocers for promotions.

I was having the hardest time trying to find a cheap "green cleaner" after tons and tons of research I finally found that baking soda and vinegar was the best thing to use for well everything! Also add a little lemon juice to make it smell better! Cheap and best cleaner I've ever used!

## ORGANIC BABY FOOD

I only feed my son organic baby food and love the variety of fruits and vegetables it allows him to get exposed to a larger variety than if I were to make my own as where we live they are never in season.
